MaloneBailey, LLP Expands to New York

Accounting Firm Acquires Clients and Key People of New York Firm

Houston, TX, December 17, 2009 – MaloneBailey, LLP announced that they are expanding their presence to include a New York office by acquiring the clients and some key people from the firm of Kempisty & Company.

MaloneBailey, LLP is focused on the delivery of audit and tax services to small and middle market companies. The firm is a market leader in the delivery of SEC audit services to small and mid-cap publicly traded clients, with over 120 registrants, the largest number of SEC clients audited by a non-national firm.

“This expansion is part of our plan to strengthen our position as a market leader in the SEC practice area,” said Wesley Middleton, CPA, MaloneBailey’s Managing Partner. “We believe this office establishes a significant presence for MaloneBailey in the New York area, allowing us to better serve our clients and providing a platform to expand our reach deeper into the SEC audit, tax and privately held company audit areas,” continued Middleton.

“Adding the New York office’s team and clients adds depth to our Broker Dealer audit expertise and Chinese audit capabilities. We will bring our oil and gas expertise to the New York market and will continue to emphasize our strong niche expertise. Having this office provides enormous opportunity for our clients and our employees,” commented John Malone, JD, CPA, MaloneBailey’s founding partner and SEC Practice Leader. “This is one more step in the realization of our vision to have an international presence.”
