

## Private Company Practice Team

The Private Company Practice Team (PCPT) at MaloneBailey, LLP provides an integrated approach to client service, offering a full gamut of accounting services to ensure clients are taken care of from beginning to end and everything in between. The PCPT was formed to provide a more cohesive approach to closely held companies that ultimately results in greater efficiency.

Relationships are the foundation of the Private Company Practice. The better we know your business, the better we are able to anticipate all your needs, whether they be related to tax, audit or consulting.

A team approach is taken on all aspects of the client relationship to ensure your needs are covered. Members of the PCPT possess the unique capability of delivering audit, tax and consulting services. In doing so, we are better equipped to efficiently serve any or all of your needs and to anticipate your needs. The synergy within this group results in a more proactive approach – it's not just about the work we are asked to complete; it's about being there year-round to deliver interim work and to look after the best interest of closely held companies.

A comprehensive service offering offers a more efficient approach to your accounting needs. The dual approach of the PCPT provides services to multiple industry lines including oil & gas, construction, real estate, biotechnology and manufacturing.
